## Objective

I'm a Computer Science student with a strong interest in frontend development and hands-on experience using React and Tailwind CSS. I also have some experience with Backend on Spring boot. I enjoy building clean, responsive web apps and solving real problems through code. I'm looking for a React internship where I can learn from real-world projects, improve my skills, and contribute as part of a development team.

## Education

### B.Sc. in Computer Science

Far Western University — 2024 – 2028

## Skills

- **Frontend:** React, Tailwind CSS, HTML, CSS, JavaScript
- **Backend:** Java (OOP), REST API basics, Next.js
- **Programming Languages:** Python, Java,
- **Tools & DevOps:** Git, GitHub, Docker
- **Databases:** PostgreSQL
- **Soft Skills:** Problem-solving, Communication, Teamwork
- **Languages:** English (Fluent), Nepali (Native)

## Projects

### E-Commerce Web Application

- Built a full-stack e-commerce platform using Java (backend) and React with Tailwind CSS (frontend).
- Features: Product listing, sorting, shopping cart, and responsive UI.

### Recipe App

- Developed a dynamic recipe app using React + Tailwind CSS.
- Features: Recipe search, user content, clean UI.
- Used Next.js for backend services and data handling.

## Workshops & Programs

- Attended React & Next.js workshop by *Digital Pathshala*
- Currently enrolled in SSRC x DataCamp AI Fellowship Program .
